

DIPALESENG MUNICIPALITY

WATER AND WASTE WATER (SEWER) AWARENESS CAMPAIGN – 25 MAY 2022

THEME: Water is Life and Sanitation is Dignity

WATER

PLEASE SAVE WATER

South Africa is a Water Scarce Country, help us save water

Don't flush if it's not necessary

"If it's yellow, let it mellow"

"If it's brown, flush it down"

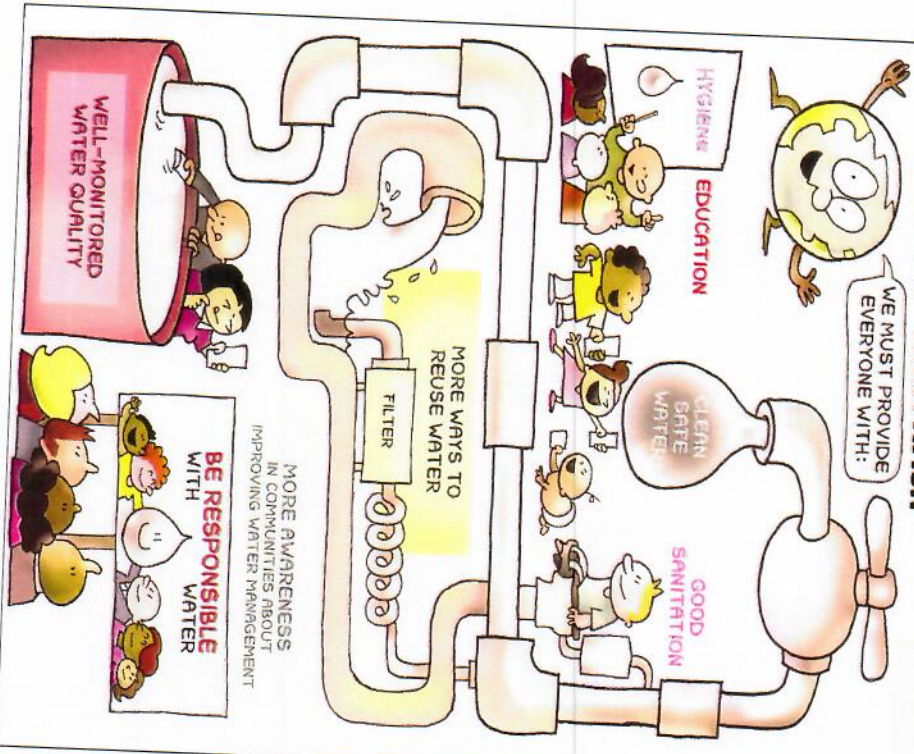

Thank you for using less Water Wisely

Every Drop Counts

Bahlali, niyacelwa ukuthi nisebenzise amanzi ngokucophelela. Asizameni kakhulu ukonga manzi ngoba abalulekile ezimpilweni zethu.

GOAL 6: CLEAN WATER AND SANITATION

BY: MARGARET DE HEER

SAVE WATER SAVE MONEY

- Clean Water In your house is NOT Free
- Every single drop will charged you
- Less usage; Less money you paid

SEWER/SANITATION

Mphakathi,

Niyacelwa ukuthi ningafaki izinto ezifana nama daipers, sanitary pads, amatshhe, newspapers nokunye okungafuneki kuma - Toilets nakuma sewer manholes nakuma. Izinto ezingafuneki zenza i-sewer iblokhake bese loko kubanga anagciwane, izifo, nokugula.

Prevent blocked sewers

The Municipality has to clear an excessively high number of sewer blockages each year. On average, we attend to nearly 60 sewer blockages every month.

Clearing these blockages costs us thousands of rand, which could be used elsewhere for other basic services.

How to avoid sewer blockages

Blocked and overflowing sewers can be dangerous to your health, are unpleasant and smell bad.

Blocked sewers are also bad for our environment, because sewage overflows into our streets, stormwater systems, rivers and into the sea.
